

As a flight attendant for a major airline, I must make my opinion heard. Allowing the use of cell phones while in flight would not only be incredibly annoying but potentially dangerous. Please imagine all scenerios- including people getting annoyed with eachother (add alcohol to the mix) and at worst, terrorists being able to communicate with one another. This job is stressful enough nowadays- there is no reason that people can't stay off their phones for a one to 5 hour flight.

I am absolutely against this.

Thank you,
